

## Interlocking Floor Tiles

This garage flooring option is a multipurpose interlocking floor system engineered to withstand the toughest mechanical environments and is not affected by automotive chemicals. It is stable, easy to clean and is engineered for vehicle traffic. With 10 different colors to choose from we can design the look you want. We can have our professional installation team install it for you or you can pick up the tiles from us and install it yourself.

## Customer Testimonials

"Everyone involved from the salesperson to the installers were very professional, neat, clean and trustworthy. They exceeded my expectations." J. Wenland of Nichols Hills, OK

"Beautiful result!! Great attention to project timing and craftsmanship. Project completed in line with pre-project expectations. Staff was extremely diligent, helpful and professional". Michael Tanner of Tulsa

"Our garage floor is beautiful! It's easy to keep clean and we will enjoy it for years to come." Tom of Norman, OK

"Excellent service, start to finish. Finished product exceeded expectations. Will be highly recommending Garage Innovations to friends and family." Arlene of Watonga, OK

"The work crew was incredible!! Very nice and very easy to work with. They came in and did exactly what we hoped to have done. Our friends and neighbors now have "Garage Envy"! Evelyn of Tulsa, OK
